

Central School, Cambridge City, Indiana

West entrance

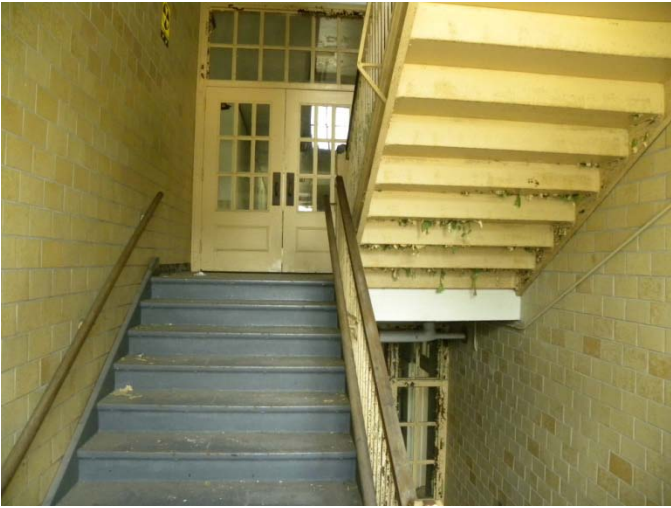

East entrance

N/E corner boiler room (structure behind is new gym)

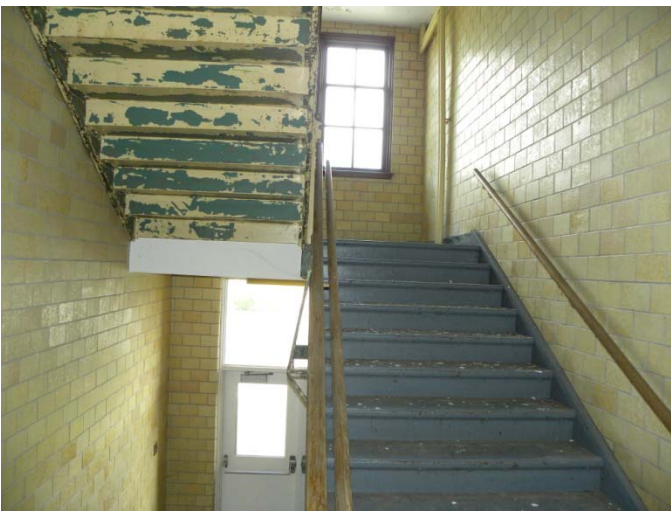

We are waiting for the rest and the doctor to turn off the alarm (the new part is the gymnasium)

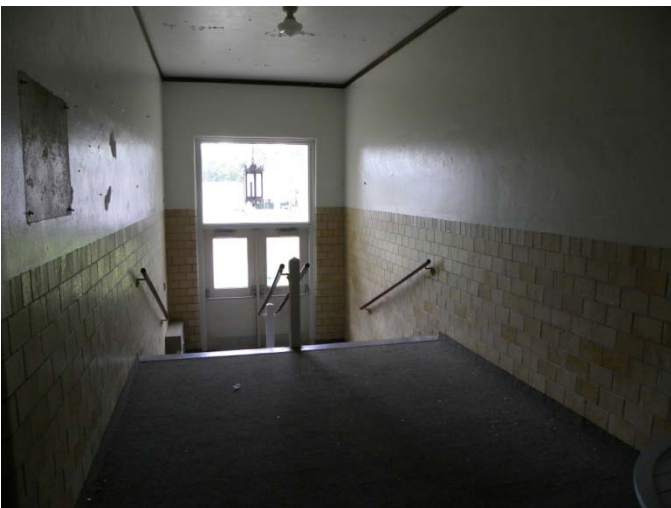

Just inside the door

Steve (Joe) is explaining something to Debbie

Since the high school are the Golden Eagles now, that makes the grade school the Eaglets 😊

Looking out the front door where we always had our class pictures taken

Glenda (into mischief?) and Debbie

About ½ of the pictures taken in this document were by Katie Carroll. *Thank you Katie!*

I don't remember closets but it has been a few years

Entrance to Miss. Ballinger's room in the background

The girls restroom and a sink in Miss. Eunice Ballinger's room

Some of us were in this office more than others. There were rumors of a big paddle with holes in it to make it hurt more . . . it didn't have holes

The boys restroom

I believe this little room was for the nurse

Stairs to the 2nd floor and the next flight went up to the nurse's office (it was the only room on that level since Central had only two floors and a basement)

To the Basement

Original sink and trash can?

I seem to remember bringing the erasers for the blackboards down here to clean the chalk dust out of them . . . did we get extra credit for that work?

Above the sink

Air conditioning was installed after we left

The girl's restroom is still intact

I wonder how much asbestos and lead based paint is in the building?

Inside the Gymnasium

Beautiful floor

Steve and Brent still have it (Steve ripped three in a row)

OK, should we get up a game?

Is it my imagination or did we have these out in US-40 during school?

Steve Centers must have played as well, he hit some really good shots
