Looking for Someone?

I will be glad to help you find anyone on the above list. Send the request to the Webmaster. After contacting the individual and they would like their contact information shared with you, I will give it to you but only with their permission. Send an e-mail to "celdridge11", add an "at" sign, add "comcast", then dot and last "net". Do not put spaces in between the parts. The intent is to prevent mining of the e-mail address (someone must intervene to get the address).
