

# PICTURES OF LINCOLN HIGH SCHOOL BEFORE AND AFTER THE FIRE

Revised 10/26/2019

Most of these pictures were displayed in Building 125 and I took pictures of them during Canal Days

Charred Locker Remains

Water Reflections

Classroom Books

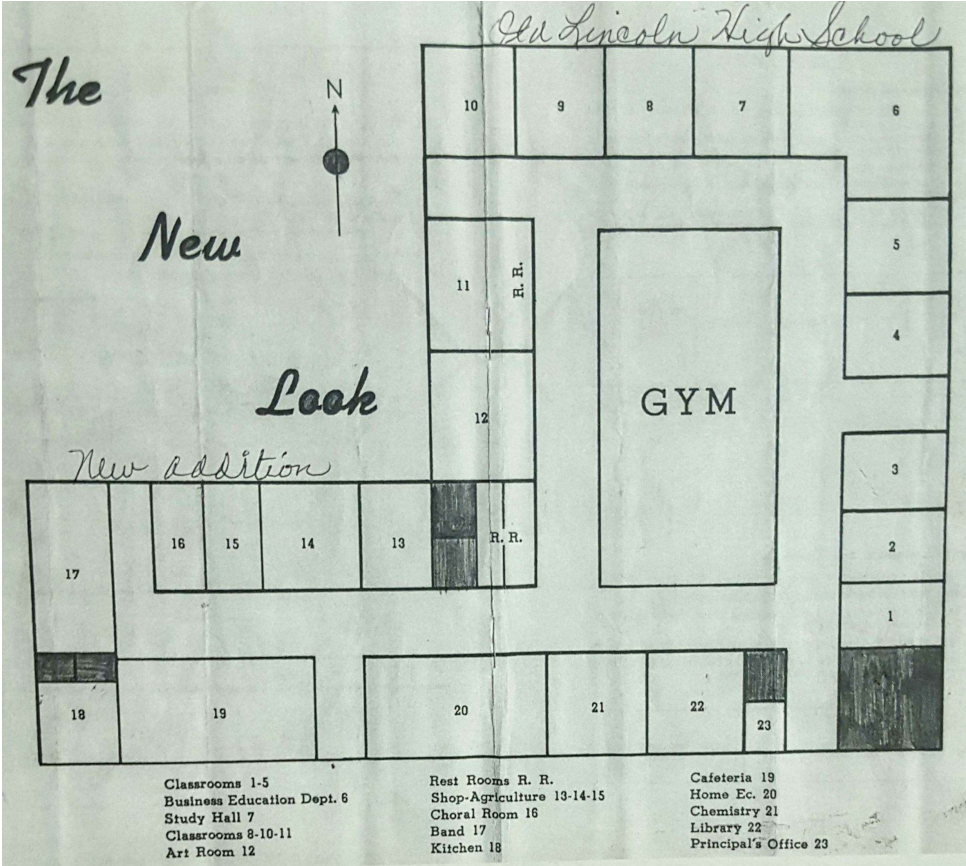

What Can Be Saved

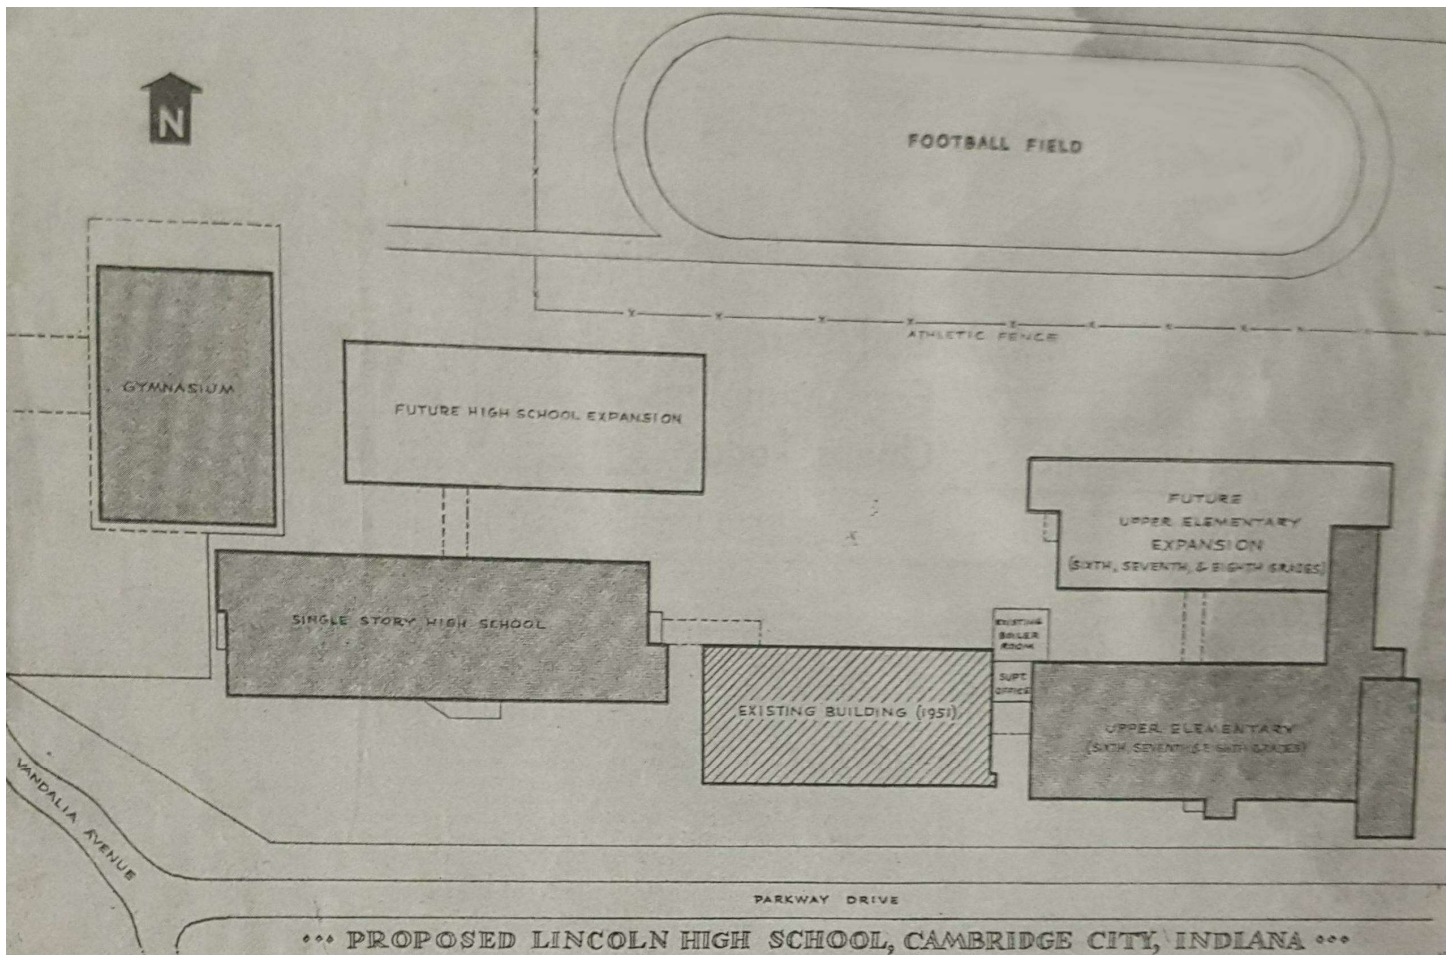

Salvaged Items

The Shell of the School After the fire

Old Lincoln High School with the New West Side Addition

The projected replacement of the Cambridge City school destroyed by fire some months ago is shown in this sketch, made by Bob Holzapfel of the Palladium-Item engraving department staff. It is a copy of the drawing of the plan made by R. W. Clinton & Associates.

Two new buildings and gymnasium are to be constructed with the program allowing for future expansions to both the high school and upper elementary buildings.

This photograph was taken in 2010
